Br J Vener Dis 1980;56:417-423

Index to Volume 56, 1980

Authors and subjects are indexed together. There is a separate index of articles abstracted and another of authors of articles abstracted.

ACKERS J P. *See* WILSON A, **46**

ACOCELLA G: Treatment of lymphogranuloma venereum with rifampicin (correspondence), **414**

ALAUSA K O, and OSOBA A O: Epidemiology of gonococcal vulvovaginitis among children in the tropics, **239**

AL-EGAILY S S. *See* DUNLOP E M C *et al*, **337**

ALERGANT C D. *See* ARYA O P *et al*, **117**

AL-SOWAYGH I A. *See* HANNA N F *et al*, **227**

Amoebiasis in New York City, **347**

Amoxycillin, effect of probenecid on, **183, 184**

Ampicillin and bacampicillin compared in the treatment of gonorrhoea, **151**

Amylase, induction of cell wall variant of gonococcus by, **230**

ANDERSON A-L. *See* MÅRDH P-A *et al*, **327**

ANNELS E H. *See* ARYA O P *et al*, **117**

ANONG C N. *See* MONTEFIORE D *et al*, **49**

ARYA O P, ALERGANT C D, ANNELS E H, CAREY P B, GHOSH A K, and GODDARD A D: Management of non-specific urethritis in men (correspondence), **117**

Autolymphocytotoxins in syphilis, **297**

Bacampicillin and ampicillin compared in the treatment of gonorrhoea, **151**

BAILEY J C. *See* COLE C H *et al*, **314**

BAIN S S R. *See* McMILLAN A *et al*, **223**

BANFFER J R J. *See* VAN DER LUGT B *et al*, **148**

BARBHAIYA R. *See* TURNER P *et al*, **184**

BARROW J. *See* BLACKWELL A L, **105**

BERGSTEIN N A M: Treatment of vulvovaginal candidal infection with miconazole-treated tampons, **408**

BIJKERK H: Penicillinase-producing gonococci in the Netherlands, **243**

BIRRY A. *See* KASATIYA S, **77**

BLACKWELL A L and BARROW J: Carcinoma of bladder presenting as gonococcal cystitis, **105**

Bladder carcinoma presenting as gonococcal cystitis, **105**

Blood donors, antichlamydial antibody in London, **404**

BOBECK S. *See* MÅRDH P-A *et al*, **96**

BOER A M. *See* de JONG N H L *et al*, **297**

Index to subjects of articles abstracted, 1980

**Indicates that only the title is given.*

Acholeplasma laidlawii, colony structure, ultrastructure and morphogenesis, **275***
Actinomycosis, genital, **64***
Acycloguanosine for systemic herpes, **190***
Acycloguanosine, inhibition of herpes virus, **63***
Acycloguanosine, resistance of herpes simplex virus to, **353***
Amoebiasis in New York 1958-78, identification of homosexuals, **354**
Amoxycillin absorption and penetration in pelvic inflammatory disease, **191**
Amoxycillin, activity against *C trachomatis* in mice, **62***
Amoxycillin and ampicillin, comparison in treatment of gonorrhoea, **61***
Amphotericin B, phenotypic resistance to, in *C albicans*, **275***
Ampicillin, activity against *C trachomatis* in mice, **62***
Ampicillin and amoxycillin, comparison in treatment of gonorrhoea, **61***
Ankylosing spondylitis and chlamydial infection in HLA-B27 blood donors, **122***
Arthritis and non-gonococcal urethritis, HLA and clinical features, **122**
Azlocillin, activity against *N gonorrhoeae* and *H influenzae*, **351***

Behçet's disease and multiple sclerosis, clinical comparative study of, **354***
Behçet's disease, HLA-B5 and pathergy test in, **276***
Behçet's disease, inner ear involvement in, **354***
Behçet's disease, oral ulceration of, acute phase proteins in, **191***
Behçet's disease, significance of mast cells in lesions of, **354***
Behçet's syndrome, colchicine in necrotising vasculitis in, **191***
Behçet's syndrome, pulmonary function in, **276***
β-lactamase inhibitors, **120***
Bladder, neurogenic, in genital herpes, **190***
Bowel disease, inflammatory, chlamydia, cytomegalovirus, and *Yersinia* in, **62***

Candida albicans, abortion associated with intrauterine infection of, **122***
C albicans, adherence to mucosal epithelial cells, **189***
C albicans, alteration of polymorphonuclear leucocyte activity by, **352***
C albicans, autoregulation of germ-tube development, **63***
C albicans, effect of yeast-mycelial transition on yeast growth, **275***
C albicans, germ-tube induction, **275***
C albicans, inhibitors of sterol biosynthesis by imidazole-containing antifungals, **352***
C albicans, mannan from, which activates serum complement, **122***
C albicans, phenotypic resistance to miconazole and amphotericin B, **275***
C albicans, requirement of opsonins for maximal phagocytosis of, **122**
Candida antigen, detection in sera by enzyme-linked immunosorbent assay-inhibition technique, **63***
C parapsilosis, identification of, **122***
Candida, sensitivity to yeast killer toxins, **352***
C tropicalis, isolation and characteristation of polyene resistant variant of, **63***
Candidacidal activity of human polymorphs, inhibition by aminoglycosides, **189***
Candidal vulvovaginitis, treatment by overgrowth of lactobacillus, **63***
Candidiasis, efficacy of econazole against, **352***
Carcinoma-in-situ associated with vulval warts, **276**
Cefaclor in male gonococcal urethritis, **121***
Cefoperazone, activity against *N gonorrhoeae* and *H influenzae*, **351***
Cefotaxime, activity against *N gonorrhoeae* and *H influenzae*, **351***
Cefotaxime in treatment of β-lactamase-producing *N gonorrhoeae*, **188***
Cefotaxime, use in prepubertal gonococcal vulvovaginitis, **61***
Cefoxitin in penicillinase-producing *N gonorrhoeae*, **120**
Cefoxitin in treatment of gonorrhoea, **274***
Cervical atypia, *C trachomatis* infection with, **121***
Cervical cancer, association of herpes simplex virus with, using lymphocyte reactivity, **123***
Cervical chlamydial infection, response to treatment, **121**
Chlamydia attachment sites, wheat germ agglutination blockage of, **122***
Chlamydia-group-specific antigen method for preparation of, **189***
Chlamydia in inflammatory bowel disease, **62**
Chlamydia trachomatis and Crohn's disease, **274**
C trachomatis antibody in cervical secretions as indicator of genital infection, **62**
C trachomatis, chlorhexidine against, **189***
C trachomatis, comparison of various McCoy cell treatment procedures, **122**
C trachomatis, delayed hypersensitivity, cause of chronic prostatitis?, **121**
C trachomatis, drug susceptibility of 15 strains from non-gonococcal urethritis in Italy, **352***
C trachomatis, effect of cortisol on cellular ATP levels, **275***
C trachomatis, effect of cortisol on fructose-1,6-diphosphatase in cells infected with, **352***
C trachomatis, formalised organisms as antigen in micro-immunofluorescence test, **122***

C t[illegible]omatis, genital tract to eye infection, tissue culture of, **122***
C trachomatis identification, comparison of Giemsa and immunofluorescence staining, **275***
C trachomatis inclusion formation, suppression by fetal calf serum, **352***
C trachomatis, infection of untreated primary human amnion monolayers with, **189***
C trachomatis infection with cervical atypia, **121***
C trachomatis in mice, activity of amoxycillin, ampicillin and oxytetracycline against, **62***
C trachomatis, in vitro activity of antimicrobials against, **62***
C trachomatis, isolation from lower respiratory tract of adults, **189**
C trachomatis, modulation by cyclic nucleotides and prostaglandins, **275***
C trachomatis, perihepatitis and salpingitis, **274**
C trachomatis, pneumonia of infancy, **274**
C trachomatis pneumonitis, mouse model, **352***
C trachomatis, role in genital tract and associated disease, **189***
C trachomatis salpingitis, mode of spread of infection, **352***
C trachomatis, serology, reticulate bodies as single antigen, **122***
C trachomatis, susceptibility to antibodies in vitro and in vivo, **62***
C trachomatis, techniques for culture and assessing antimicrobial susceptibility of, **189***
C trachomatis type-specific antigen, isolation of, using molecular shift chromatography, **352***
Chlamydial antibodies, immunofluorescence testing for, **122*** *(bis)*
Chlamydial antibodies, preparation of antigens for microimmunofluorescence testing, **121***
Chlamydial endocarditis, **189***
Chlamydial endotoxin-like activity, **122**
Chlamydial genital infection in male infertility, **189***
Chlamydial infection and ankylosing spondylitis in HLA-B27 blood donors, **122***
Chlamydial infection in neonates, a prospective study, **61**
Chlamydial infection of cervix, response to treatment, **121**
Chlamydial infection of mothers and their infants, **61**
Chlamydial urethritis, asymptomatic, and persistent urethral leucocytosis, **188**
Chlorhexidine against *C trachomatis*, **189***
Clindamycin, activity against *H ducreyi*, **275***
Colchicine applications for penile warts, **190***
Colchicine in necrotising vasculitis in Behçet's syndrome, **191***
Concanavalin-A, suppression of lymphocyte response to, by *T pallidum*-infected rabbits, **119***
Co-trimoxazole and trimethoprim, effect of, on development of drug-resistant vaginal and faecal flora, **354***
Co-trimoxazole, resistance of *N gonorrhoeae* to, **351***
Crohn's disease and *C trachomatis*, **274**
CSF, FTA-ABS in neurosyphilis, **119***
CSF, syphilis antibodies in diagnostic significance, **186**
Cyclacillin, potential single-dose treatment for *N gonorrhoeae*, **188***
Cystoid macular oedema in neurosyphilis, **59***
Cytomegalovirus and herpes simplex virus infections compared in low-income women, **123***
Cytomegalovirus in inflammatory bowel disease, **62***

Doxycycline in mycoplasma infection and infertility, **62**

Ear, inner, involvement in Behçet's disease, **354***
Econazole, efficacy against candidiasis and other vaginal discharges, **352***
Enteric diseases, sexually transmitted, **64***
Epididymitis, acute, prospective study of 50 patients, **63**
Erythromycin, activity against *H ducreyi*, **275***
Erythromycin in treatment of non-gonococcal urethritis, **62**

FitzHugh-Curtis syndrome, **350**
FitzHugh-Curtis syndrome, *C trachomatis* in, **274**
Foetal alcohol syndrome and metronidazole, **63***
FTA-ABS in CSF in neurosyphilis, **119***

Glomerulonephritis, membranous, in congenital syphilis, **119***
Gonococcal antigens, inhibitors in urine of radioimmunoassay of, **61**
Gonococcal antigens in urine, detection by radioimmunoassay, **60**
Gonococcal disseminated infection in mice, **187***
Gonococcal endocarditis, **119**
Gonococcal endocarditis, diagnosis by echocardiography, **60***
Gonococcal infection in infants and children, **60***
Gonococcal ophthalmia neonatorum after caesarian section, **60***
Gonococcal otitis externa, **59***
Gonococcal pelvic inflammatory disease, economics in New York, **119***
Gonococcal plasmids, ecology of, **120***
Gonococcal proctitis with superimposed trauma, **60***
Gonococcal urethritis, comparison of tube and microdilution limulus lysate techniques for diagnosis of, **351**
Gonococcal urethritis, diagnosis by culture of first-voided urine, **60**
Gonococcal urethritis, use of cefaclor in men, **121***
Gonococcal vulvovaginitis in prepubertal girls, **119**
Gonococcal vulvovaginitis, prepubertal, cefotaxime in, **61***
Gonococci and toilet seats, **61**
Gonococci, endocervical, effects of surgical lubricant on, **187***
Gonococci, release of peptidoglycan from growing, **60**
Gonorrhoea, aseptic arthritis after, **272**
Gonorrhoea, comparison of ampicillin and amoxycillin in treatment of, **61***
Gonorrhoea, comparison of two selective media for diagnosis of, **188***
Gonorrhoea, complement-fixation test, **351**
Gonorrhoea, follow-up of patients with pelvic inflammatory disease, **273***
Gonorrhoea in street prostitutes, **64***

Gonorrhoea in women, screening by culture, **120***
Gonorrhoea, prepubertal, spectinomycin in, **352***
Gonorrhoea, rectal, diagnosis and treatment, **274**, **274***
Gonorrhoea screening, comparison of three techniques, **128***
Gonorrhoea, screening for, in homosexual bath-houses, **123***
Gonorrhoea, treatment with cefoxitin, **274***

Haemophilus ducreyi, comparison of activity of rosamicin, erythromycin, clindamycin, metronidazole and ornidazole against, **275***
H influenzae, activity of cefoperazine, cefotaxime, moxalactam, azlocillin, mezlocillin, against, **351***
H vaginalis, aminopeptidase activity in, **190***
H vaginalis, and vaginitis, controlled trial of treatment, **190**
H vaginalis, comparison of two media for isolation, **64***
Hepatic ultrastructure in secondary syphilis, **119***
Hepatitis A and B, serological markers in chronic liver disease, **276***
Hepatitis A, sexual transmission in homosexuals, **190**
Hepatitis B—a reservoir, **64**
Hepatitis B and primary carcinoma of liver, **123**
Hepatitis B, chronic infection, in homosexuals, **123**
Hepatitis B, serological tests in homosexuals, **353**
Hepatitis B serology in Greek prostitutes, **353**

Liver carcinoma and hepatitis B, **123**
Liver disease, chronic, serological markers of hepatitis A and B in, **276***
Los Angeles, screening for gonorrhoea and syphilis in homosexual bath-houses, **123***
Lymecycline in treatment of non-gonococcal urethritis, **62**

McCoy cell treatment procedures, comparison of, **122***
Menopausal pre- and post-, comparative study of genital bacteriology in women, **124**
Metronidazole, activity against *H ducreyi*, **275***
Metronidazole and the foetal alcohol syndrome, **63***
Metronidazole for non-specific vaginitis, **354***
Metronidazole, lack of evidence for cancer due to, **122***
Metronidazole, mutagenicity of, **63**
Metronidazole, no cytogenic effect of, **353***
Metronidazole penetration into rabbits' preformed cavities, **353***
Metronidazole, sister chromatid exchanges in lymphocytes treated with, **275**
Mezlocillin, activity against *N gonorrhoeae* and *H influenzae*, **351***
Miconazole, phenotypic resistance to, in *C albicans*, **275***

Molluscum contagiosum, virus-specific and anticellular antibodies in, **123***
Moxalactam, activity against *N gonorrhoeae* and *H influenzae*, **351***
Multiple sclerosis and Behçet's disease, clinical comparative study of, **354***
Mycoplasma hominis, colony structure, ultrastructure and morphogenesis, **275***
M hominis, different routes of infection of female Grivet monkeys using, **189***
M hominis, orogenital contact and pharyngeal isolation of, **61***
Mycoplasma infection and infertility, effects of doxycycline, **62**
Mycoplasma infection, study of fetus and placenta, **121**
Mycoplasmas, genital, **352***

Neisseria gonorrhoeae, activity of cefoperazone, cefotaxime, moxalactam, azlocillin, mezlocillin against, **351***
N gonorrhoeae, antibodies in urethral exudates, **120***
N gonorrhoeae, antigenic protein complex in outer membrane of, **188***
N gonorrhoeae, attachment of, to HeLa cells by double radiolabelling, **120***
N gonorrhoeae, auxanographic grouping and typing, **60***
N gonorrhoeae, auxogroup and MIC of penicillin, **273***
N gonorrhoeae, bacteraemia associated with complement deficiency, **60**
N gonorrhoeae, biological properties of two pilus types, **188***
N gonorrhoeae, β-lactamase-producing, treatment with cefotaxime, **188**
N gonorrhoeae, β-lactamase production when cultured with ethidium bromide, **120***
N gonorrhoeae, cefoxitin in penicillinase-producing, **120**
N gonorrhoeae, characteristics of defaulters after treatment of, **187***
N gonorrhoeae, chemical method for detection of, **273**
N gonorrhoeae, chromosomal gene transfer via conjugation in, **352***
N gonorrhoeae, comparison of penicillin-binding proteins in strains of, **120***
N gonorrhoeae, confirmation of, using Minitek and slide coagglutination techniques, **120***
N gonorrhoeae, conjugal transfer of R plasmids in, **60**
N gonorrhoeae, co-transformation of temperature sensitivity and nutritional markers in, **120***
N gonorrhoeae, detection of antibodies on extra-genital surfaces, **273**
N gonorrhoeae, DNA repair capacities of, absence of photoreactivation, **188***
N gonorrhoeae, effects of low ampicillin concentrations on, **120***
N gonorrhoeae, evaluation of culture procedure for identification of, **120***
N gonorrhoeae, evaluation of five serological tests for, **120***
N gonorrhoeae, evaluation of Phadebact gonococcus test for, **188***
N gonorrhoeae, genetic basis for colonial variations in, **61***
N gonorrhoeae, genetic exchange mechanisms in, **61***
N gonorrhoeae, growth in continuous culture, **273***
N gonorrhoeae, immunogenicity of ribosomal preparations from, **351***
N gonorrhoeae, increasing resistance to penicillin and cotrimoxazole, **351***
N gonorrhoeae, interactions of lectins with, **351***
N gonorrhoeae, isolates from women with salpingitis, comparison of virulence markers of peritoneal and Fallopian tube isolates, **351***
N gonorrhoeae, killing of, by human polymorph granule extracts, **120***
N gonorrhoeae, membrane microenvironment using electron spin resonance, **61***
N gonorrhoeae, orbital cellulitis from, in enucleated socket, **187**
N gonorrhoeae, ornithine transcarbamylase from, **274***
N gonorrhoeae, orogenital contact and pharyngeal isolation of, **61***
N gonorrhoeae, outer membrane proteins of, **351***
N gonorrhoeae, penicillinase-producing, in-vitro susceptibility of, **120**
N gonorrhoeae, pharyngeal, **272, 274**
N gonorrhoeae, polygenes and modifier genes for tetracycline and penicillin resistance in, **351***
N gonorrhoeae, protection of chick embryo by monospecific antisera, **120***
N gonorrhoeae, protection of chick embryo by non-specific antisera against, **60***
N gonorrhoeae, requirement of hypoxanthine, **273***
N gonorrhoeae, resistance to normal serum, effects using subcutaneous chambers in guinea pigs, **120***
N gonorrhoeae, sensitivity of, to R-type pyocines, **120***
N gonorrhoeae, serology, classification by co-agglutination, **273, 273*** ***(bis)***
N gonorrhoeae, serotype antigen, analysis by indirect enzyme-linked immunoassay, **351***
N gonorrhoeae, serum bactericidal activity against, **350**
N gonorrhoeae, single-dose cyclacillin for, **188***
N gonorrhoeae, slide agglutination confirmation of, **351**
N gonorrhoeae, sulphamethoxazole-trimethoprim synergism against, **352***
N gonorrhoeae, type 4, phagocytosis by polymorphs, role of IgG and complement, **188**
N gonorrhoeae, virulence associated with surface protein composition, **120***
N gonorrhoeae, wheat germ agglutinin for identification of, **188**
N gonorrhoeae, WSJM medium for, **351***
N meningitidis as pathogen in two related cases of epididymitis and pelvic inflammatory disease, **123***
N meningitidis bacteraemia associated with complement deficiency, **60**
N meningitidis urethritis, **123**
Neisseria, rapid carbohydrate degradation tests for pathogenic, **351**
Neurosyphilis, cystoid macular oedema in, **59***
Neurosyphilis, FTA-ABS in CSF, **119***
New York, amoebiasis and identification of homosexuals 1958-78, **354**
New York, economics of gonococcal pelvic inflammatory disease in, **119***
Non-gonococcal urethritis and reactive arthritis, HLA and clinical features, **122**

Non-gonococcal urethritis, drug susceptibility of 15 strains of *C trachomatis*, **352***
Non-gonococcal urethritis, erythomycin and lymecycline in treatment of, **62**

Ornidazole, activity against *H ducreyi*, **275***
Ornithine transcarbamylase from *N gonorrhoeae*, **274***
Osteomyelitis, syphilitic, **59***
Oxytetracycline, activity against *C trachomatis* in mice, **62***

Pachymeningitis cervicalis hypertrophica syphilitica, **186***
Pediculosis pubis, comparison of treatment using synergized pyrethrins and benzene hexachloride, **123**
Pediculosis pubis in STD clinic, **276***
Pelvic inflammatory disease, amoxycillin absorption and penetration in, **191**
Pelvic inflammatory disease, risk of, amongst IUCD users, **191**
Penicillamine, contact reaction of, in vaginal secretions, **64***
Penicillin levels in blood and CSF, **59**
Penicillin MIC and auxogroup of *N gonorrhoeae*, **273***
Penicillin resistance in *N gonorrhoeae*, polygenes and modifier genes in, **351***
Penicillin, resistance of *N gonorrhoeae* to, **351***
Peyronie's disease and HLA B7, **64***
Pharynx, orogenital contact and isolation of *N gonorrhoea, M hominis*, and *U urealyticum*, **61***
Plasmids, gonococcal, ecology of, **120***
Pneumonia, chlamydial, **274**
Pneumonitis, chlamydial, mouse model, **352***
Pregnancy, evaluation of syphilis during, **119***
Prostatism, symptoms, cystometric and urodynamic findings, **191***
Prostatitis, chronic, due to delayed hypersensitivity to *C trachomatis*? **121**
Prostitutes and VD 1869-1870, **64***
Prostitutes, gonorrhoea in, **64***
Prostitutes, Greek, hepatitis B serology in, **353**
Pulmonary function in Behcet's disease, **276***

Reiter's disease after *S typhimurium* infection, **275***
Reiter's disease in women, **352**
Reiter's syndrome, **122***
Reiter's syndrome after salmonella infection in HLA-B27-positive brothers, **122***
Reiter's syndrome, nail involvement in, **189***
Rosamicin, activity against *H ducreyi*, **275***
Rosamicin, activity against *U urealyticum*, **121***
Rosamicin, in-vitro effects on *U urealyticum*, **62***

Salmonella infection before Reiter's syndrome in HLA-B27-positive brothers, **122***
Salmonella typhimurium. Reiter's disease after, **275***
Salpingitis, chlamydial, mode of spread of infection, **352***
Spectinomycin in prepubertal gonorrhoea, **352***
STD, effects of socioeconomic status on incidence of, **124***
STD, social status and sexual behaviour in, **124***
Sulphamethoxazole-trimethoprim synergism against *N gonorrhoeae*, **352***
Syphilis and homosexuality in adolescents, **186**
Syphilis antibodies in CSF and their diagnostic significance, **186**
Syphilis, congenital, membranous glomerulonephritis in, **119***
Syphilis, congenital neuro-, and juvenile paresis, **272***
Syphilis, early, circulating immune complexes in, **187**
Syphilis, endemic, passive transfer of resistance in hamsters, **119**
Syphilis, experimental and serology of, in hares, **187***
Syphilis, experimental, passive transfer of immunity with immunoglobulin G, **187***
Syphilis during pregnancy, evaluation of, **119***
Syphilis, infectious, epidemiology of, **119***
Syphilis, late latent, serological responses to treatment of, **272**
Syphilis, lymphadenitis in, immunofluorescent identification of spirochaetes from, **186***
Syphilis of rectum mimicking neoplastic disease, **350***
Syphilis, penicillin levels in blood and CSF, **59**
Syphilis, screening for, in homosexual bath-houses, **123**
Syphilis, secondary, hepatic ultrastructure in, **119***
Syphilis, secondary, histopathology of, **186***
Syphilis serology, comparison of serum and plasma using reagin screen test, **186***
Syphilis serology, use of TPHA test in blood donors, **350***
Syphilis serology, WR, Kline, and VDRL in, **186***
Syphilis, uveitis in, **272**
Syphilitic osteomyelitis, **59***

Tetracycline resistance in *N gonorrhoeae*, polygenes and modifier genes in, **351***
Toilet seats and gonococci, **61**
Torulopsis, sensitivity to yeast killer toxins, **352***
TPHA test in blood donors, **350***
Treponema pallidum and *T pertenue*, genetic relationship of, **187***
T pallidum, concanavalin A-mediated affinity, film for, **187***
T pallidum, effect on motility of, in acellular culture medium, **119***
T pallidum-infected rabbits, suppression of lymphocyte response to concanavalin-A, **119***
T pallidum-infected testes supernatants in cellular response of normal rabbit lymphocytes, **350**
T pallidum, lymphocyte response to, in early experimental syphilis, **186***
T pallidum motility, effect of agents on, in acellular culture medium, **350**
T pallidum, rates of clearance from blood of BCG-treated and syphilitic rabbits, **187**
T pallidum, receptor-binding proteins and immunogens of virulent, **272***
T pallidum, response of splenic and lymph node lymphocytes to, **187***
T pallidum, solid-phase radio-immunoassay for antibodies to, **59***
T pallidum, surface-associated host proteins on virulent, **186***
T pallidum, testicular cultivation of, facilitated by sustained release steroids, **186***
T pallidum, unique lipoid composition of, **59***
T pertenue and *T pallidum*, genetic relationship of, **187***
Treponemes, electron microscopy of, in TPI test, **59**
Trichomonas vaginalis, comparison of five methods for detection of, **353***

T vaginalis, inhibited by oral contraceptives?, **275***
T vaginalis, presentations and laboratory diagnosis of, **353**
T vaginalis, screening by use of acridine orange fluorescence, **275**
T vaginalis, serodiagnosis by indirect fluorescent antibody test, **189**
Trimethoprim, and co-trimoxazole, effect of, on development of drug-resistant vaginal and faecal flora, **354***
Turkey, Behçet's disease in, **276***

Ureaplasma urealyticum, activity of rosamicin against, **121***
U urealyticum, colony structure, ultrastructure and morphogenesis, **275***
U urealyticum, comparison of proteins and polypeptides of serotypes, **275***
U urealyticum, enhancement of growth by putrescine, **189***
U urealyticum growth media, effects of reducing agents and catalase on, **62**
U urealyticum, in-vitro susceptibility to rosamicin, **62***
U urealyticum, modified metabolic inhibition test for serotyping, **62***
U urealyticum, orogenital contact and pharyngeal isolation of, **61***
U urealyticum, survival on different swabs, **121**
Urethra, mucosa of, bacterial colonisation of, **276***
Urethral, peri-, bacterial flora in women, **191***
Uveitis, acquired syphilitic, **272**

Vaginal parasitosis, **191***
Vaginal ulceration, tampon-associated, **191***
Vaginitis, non-specific, metronidazole for, **354***
VD and prostitutes 1869-1870, **64***
Vulva, quantitative microbiology of, **124**

Wart virus infection, non-condylomatous cervical, **354**
Warts, genital, as a sign of sexual abuse in children, **123***
Warts, genital, carcinoma-in-situ associated with, **276**
Warts, penile, treated by topical colchicine, **190***
Warts, vulval, treated by modified simple vulvectomy, **190***
Women with gonorrhoea, screening by culture, **120***

Yeasts, biochemical identification of, **122***
Yersinia in inflammatory bowel disease, **62***

Br J Vener Dis 1980;**56**:430-434

British Journal of Venereal Diseases

Edited for the Medical Society for the Study of Venereal Diseases

EDITOR R N Thin

ASSISTANT EDITORS B Evans, A McMillan

EDITORIAL COMMITTEE C B S Schofield, J Barrow, M W Adler, G Causse, G Csonka, L M Drusin, J M Knox, G D Morrison, I Phillips, E Stolz, J Wallin, A E Wilkinson, Editor of the *British Medical Journal*

TECHNICAL EDITOR Shuna Judge

VOLUME 56, 1980

BRITISH MEDICAL ASSOCIATION
TAVISTOCK SQUARE, LONDON WC1H 9JR

Contents

February 1980 Vol 56 No 1

The International Union against the Venereal Diseases and Treponematoses
R D CATTERALL (Gt Britain) *page* 1

Characterisation of *Neisseria gonorrhoeae* from women with simultaneous infections at two sites
ROBERT C NOBLE (USA) *page* 3

Homosexuality and venereal disease in the United Kingdom
BRITISH CO-OPERATIVE CLINICAL GROUP (Gt Britain) *page* 6

Recent observations on the serology of syphilis
A LUGER, B SCHMIDT, I SPENDLINGWIMMER, AND F HORN (Austria) *page* 12

Non-specific positive test results to syphilis in dermatological diseases
M GIBOWSKI AND E NEUMANN (Poland) *page* 17

Antitreponemal IgE in early syphilis
J D BOS, F HAMERLINCK, AND R H CORMANE (the Netherlands) *page* 20

Auxotypes and antimicrobial suceptibilities of *Neisseria gonorrhoeae* in black and white patients
ROBERT C NOBLE AND B R MILLER (USA) *page* 26

Relationship of the interval between infections and the similarity of gonococcal strains in recurrent gonorrhoea
ROBERT C NOBLE, A P ORANJE, M F MICHEL, AND E STOLZ (USA and the Netherlands) *page* 31

An unusual case of gonococcal arthritis
K M RENNEY (USA) *page* 35

Chlamydial infection of the cervix in contacts of men with nongonococcal urethritis
I A TAIT, E REES, D HOBSON, R E BYNG, AND M C K TWEEDIE (Gt Britain) *page* 37

Urine culture for the detection of *Trichomonas vaginalis* in men
A WILSON AND J P ACKERS (Gt Britain) *page* 46

Herpesvirus hominis type 2 infection in Ibadan
D MONTEFIORE, A O SOGBETUN, AND C N ANONG (Nigeria) *page* 49

Sexually transmitted diseases in clinic patients in Lagos
V O ROTIMI AND A O SOMORIN (Nigeria) *page* 54

Correspondence *page* 57

Notices *page* 57

Book review *page* 58

Abstracts *page* 59

April 1980 Vol 56 No 2

Some aspects of venereal diseases in Greenland
ELLIS FROM (Denmark) *page* 65

Immunoglobulin-bearing lymphoid cells in primary syphilis
J D BOS, F HAMERLINCK, AND R H CORMANE (the Netherlands) *page* 69

T lymphoid cells in primary syphilis
J D BOS, F HAMERLINCK, AND R H CORMANE (the Netherlands) *page* 74

Further evaluation of the microhaemagglutination test to determine treponemal antibodies in CSF
S KASATIYA AND A BIRRY (Canada) *page* 77

Assessment of the Till-U-Test GC slide
W H DONALD (Gt Britain) *page* 81

Delay and inhibition of growth of *Neisseria gonorrhoeae* in vitro
WILLIAM G WESTBROOK III (Philippines) *page* 83

Prolonged use of the Greenland method of treatment of gonorrhoea
A J EVANS, G D MORRISON, AND D J PRICE (Gt Britain) *page* 88

Value and feasibility of screening women attending STD clinics for cervical chlamydial infections
SHIRLEY J RICHMOND, I D PAUL, AND P K TAYLOR (Gt Britain) *page* 92

Colonisation of pregnant and puerperal women and neonates with *Chlamydia trachomatis*
P-A MÅRDH, I HELIN, S BOBECK, J LAURIN, AND T NILSSON (Sweden) *page* 96

Treatment of nongonococcal urethritis with trimethoprim-sulphadiazine and with placebo
J PAAVONEN, M KOUSA, P A SAIKKU, E VARTIAINEN, L KANERVA, AND A LASSUS (Finland) *page* 101

Carcinoma of the bladder presenting as gonococcal cystitis
A L BLACKWELL AND J BARROW (Gt Britain) *page* 105

Vaginal pH and microflora related to yeast infections and treatment
S M DRAKE, B A EVANS, AND A GERKEN (Gt Britain) *page* 107

Proctitis and herpes simplex virus in homosexual men
D GOLDMEIER (Gt Britain) *page* 111

First African Regional Conference on Sexually Transmitted Diseases
R D CATTERALL (Gt Britain) *page* 115

Correspondence *page* 117

Book review *page* 118

Abstracts *page* 119

June 1980 Vol 56 No 3

Influence of testicular fluid infected with *Treponema pallidum* on intradermal lesions
T J FITZGERALD AND R C JOHNSON *page* 125

Sulfhydryl oxidation using procedures and experimental conditions commonly used for *Treponema pallidum*
T J FITZGERALD, R C JOHNSON, AND E T WOLFF *page* 129

Utrastructure of vascular and connective tissue changes in primary syphilis
TERESA WRZOŁKOWA AND JERZY KOZAKIEWICZ *page* 137

Identification of *Neisseria gonorrhoeae* in the routine venereological laboratory
T. RUFLI *page* 144

Prevalence of cervical gonorrhoea in women with unwanted pregnancies
B VAN DER LUGT, A C DROGENDIJK, AND J R J BANFFER *page* 148

Comparative study of bacampicillin and ampicillin in the treatment of uncomplicated gonorrhoea
PATRICIA J SPENGLER AND LARRY D EDWARDS *page* 151

Quantitative aspects of chlamydial infection of the cervix
D HOBSON, P KARAYIANNIS, RUTH E BYNG, ELISABETH REES, I ANNE TAIT, AND JEAN A DAVIES *page* 156

Epidemiology of infection by serotypes D to K of *Chlamydia trachomatis*
ERIC M C DUNLOP, SOHRAB DAROUGAR, AND JOHN D TREHARNE *page* 163

Ureaplasma urealyticum in the urethra of healthy men
J VIARENGO, F HEBRANT, AND P PIOT *page* 169

Venereal diseases in the islands of the North Pacific
R R WILLCOX *page* 173

Sexually transmitted diseases: extract from the *Annual Report of the CMO of the DHSS for the Year 1978 page* 178

Annual report of the Medical Society for the Study of Venereal Diseases *page* 182

Correspondence *page* 183

Book reviews *page* 195

Correction *page* 185

Abstracts *page* 186

August 1980 Vol 56 No 4

Editorial: Gonorrhoea—a continuing problem in the 1980s *page* 193

Sexually transmitted diseases in Nigeria
R D CATTERALL *page* 194

Pleural effusion disease agent as passenger of *Treponema pallidum* suspensions from rabbits
KNUD L FENNESTAD, LIS BRUUN, AND ERIK WEDØ *page* 198

Venereal diseases in the islands of the South Pacific
R R WILLCOX *page* 204

Immunoregulatory properties of serum from patients with different stages of syphilis
J J THOMPSON, R J MANGI, R LEE, AND J M DWYER *page* 210

Immunoglobulin-bearing polymorphonuclear leucocytes in primary syphilis
J D BOS, F HAMERLINCK, AND K H CORMANE *page* 218

Persistent serum immune complexes in syphilis
SIEGFRIED ENGEL AND WOLFGANG DIEZEL *page* 221

Detection of antigonococcal IgA in cervical secretions by indirect immunofluorescence: an evaluation as a diagnostic test
A McMILLAN, G McNEILLAGE, H YOUNG, AND S S R BAIN *page* 223

One-step staining of *Neisseria gonorrhoeae* in urethral discharge by methyl green-pyronin
N F HANNA, D TAYLOR-ROBINSON, G W CSONKA, J R W HARRIS, AND I A AL-SOWAYGH *page* 227

Induction of a cell wall variant of the gonococcus by human amylase
A MELLERSH, S HAFIZ, M G McENTEGART, AND I GEARY *page* 230

Bacterial interference of *Neisseria gonorrhoeae* by α-haemolytic streptococci
M E McBRIDE, W CHRISTOPHER DUNCAN, AND JOHN M KNOX *page* 235

Epidemiology of gonococcal vulvovaginitis among children in the tropics
K O ALAUSA AND A O OSOBA *page* 239

Penicillinase-producing gonococci in the Netherlands
H BIJKERK *page* 243

Gonorrhoea in Rotterdam caused by penicillinase-producing gonococci
K C NAYYAR, R C NOBLE, M F MICHEL, AND E STOLZ *page* 244

Antibiotic sensitivities of gonococci isolated in Rotterdam and results of treatment with cefuroxime
K C NAYYAR, M F MICHEL, AND E STOLZ *page* 249

Sensitivity of *Neisseria gonorrhoeae* to spectinomycin and thiamphenicol
K GRUNDER AND D PETZOLDT *page* 252

HR 756: a new cephalosporin in the treatment of gonorrhoea caused by ordinary and penicillinase-producing strains of *Neisseria gonorrhoeae*
V S RAJAN, E H SNG, R PANG, N J TAN, T THIRUMOORTHY, AND K L YEO *page* 255

Contact tracing in patients with genital chlamydial infection
I THELIN, A-M WENNSTRÖM, AND P-A MÅRDH *page* 259

AUGUST 1980 Vol 56 No 4 *continued*

Confidentiality in the National Health Service and in the service for sexually transmitted diseases
R D CATTERALL *page* 263

Condylomata lata of the palms: an unusual site
M EL-SAAD EL-RIFAIE *page* 267

Correspondence *page* 269

Notices *page* 270

Correction *page* 270

Book reviews *page* 271

Abstracts *page* 272

October 1980 Vol 56 No 5

Venereal diseases in the Pacific Islands: Papua New Guinea
R R WILLCOX *page* 277

Sexually transmitted diseases in Indonesia
MARWALI HARAHAP *page* 282

Mechanisms of selective toxicity of metronidazole and other nitroimidazole drugs
DAVID I EDWARDS *page* 285

Quantitative microhaemagglutination assay for *Treponema pallidum* antibodies in experimental syphilis
ROBERT R TIGHT AND ARTHUR C WHITE *page* 291

Autolymphocytotoxins in syphilis
N H L DE JONG, J A M KOEHORST, J J VAN DER SLUIS, AND A M BOER *page* 297

Concentric rings simulating tinea imbricata in secondary syphilis
P A SAROJINI, A D DHARMARATNAM, K PAVITHRAN, AND C GANGADHARAN *page* 302

Enzymatic detection of *Neisseria gonorrhoeae*
MILTON M TAKEGUCHI, HOWARD H WEETALL, DAVID K SMITH, HUGH C McDONALD, KIM A LIVSEY, CLARENCE C DETAR, AND THOMAS A CHAPEL *page* 304

Sensitivity to penicillin of gonococci in different racial groups
P RODIN, A D SETH, D M KING, AND A E WILKINSON *page* 308

Comparison of methods for the detection of penicillinase-producing *Neisseria gonorrhoeae*
E H SNG, K L YEO, V S RAJAN, AND A L LIM *page* 311

Vaginal chemoprophylaxis in the reduction of reinfection in women with gonorrhoea: clinical evaluation of the effectiveness of a vaginal contraceptive
CLIFFORD H COLE, THOMAS G LACHER, JAMES C BAILEY, AND DIANE L FAIRCLOUGH *page* 314

OCTOBER 1980 Vol 56 No 5 *continued*

Diagnosis and management of anorectal gonorrhoea in women
VALERIE A STANSFIELD *page* 319

Oropharyngeal flora and individual susceptibility to neisserial infection
H YOUNG, A B HARRIS, AND D H H ROBERTSON *page* 322

Isolation of *Neisseria lactamica* from the female genital tract
WILLIAM A TELFER BRUNTON, HUGH YOUNG, AND DONALD R K FRASER *page* 325

Prevalence of *Chlamydia trachomatis* and *Neisseria gonorrhoeae* infections in Greenland: a seroepidemiological study
P-A MÅRDH, I LIND, E FROM, AND A-L ANDERSEN *page* 327

Tetracycline in nongonococcal urethritis: comparison of 2 g and 1 g daily for seven days
WILLIAM R BOWIE, JOHN S YU, ARCHANA FAWCETT, AND HUGH D JONES *page* 332

Subclinical pneumonia due to serotypes D-K of *Chlamydia trachomatis:* case reports of two infants
ERIC M C DUNLOP, ROGER J HARRIS, SOHRAB DAROUGAR, JOHN D TREHARNE, AND SAFWAT S AL-EGAILY *page* 337

Chlamydia trachomatis as a possible cause of peritonitis and perihepatitis in a young woman
J PAAVONEN AND V V VALTONEN *page* 341

A case of lymphogranuloma venereum of 20 years' duration: isolation of *Chlamydia trachomatis* from perianal lesions
MICHAEL DAN, HESCHI H ROTMENSCH, EMMANUEL EYLAN, ARDON RUBINSTEIN, RAFAEL GINSBERG, AND MEIR LIRON *page* 344

Obituaries *page* 349

Abstracts *page* 350

December 1980 Vol 56 No 6

Kinetic study of serum penicillin concentrations after single doses of benzathine and benethamine penicillins in young and old people
P COLLART, M POITEVIN, A MILOVANOVIC, A HERLIN, AND J DUREL *page* 355

Penicillin concentrations in cerebrospinal fluid after different treatment regimens for syphilis
NIWAT POLNIKORN, RAWIPHAN WITOONPANICH, MALAI VORACHIT, SODSAI VEJJAJIVA, AND ATHASIT VEJJAJIVA *page* 363

Tabes dorsalis progressing to general paresis after 20 years despite routine penicillin therapy
A J H GILES *page* 368

Immunological responses in late syphilis
R SHANNON, C G COPLEY, AND G D MORRISON *page* 372

Value of serological diagnosis in congenital syphilis: report of nine cases
M V BOROBIO, M C NOGALES, AND J C PALOMARES *page* 377

Lack of serological evidence for venereal spirochaetosis in wild Victorian rabbits and the susceptibility of laboratory rabbits to *Treponema paraluis-cuniculi*
S R GRAVES, J W EDMONDS, AND ROSAMOND C H SHEPHERD *page* 381

Susceptibility of rabbits venereally infected with *Treponema paraluis-cuniculi* to superinfections with *Treponema pallidum*
S GRAVES *page* 387

Assessment of transport and isolation methods for gonococci
E TAYLOR AND I PHILLIPS *page* 390

Gentamicin in the treatment of infections due to penicillinase-producing gonococci
V S RAJAN, N J TAN, ROGER PANG, AND E H SNG *page* 394

Rectal gonorrhoea in male homosexuals: presentation and therapy
J L FLUKER, P DEHEROGODA, D J PLATT, AND A GERKEN *page* 397

Evaluation of the Papanicolaou-stained cytological smear as a screening technique for asymptomatic gonorrhoea
GAIL I GENVERT, LEWIS M DRUSIN, JOHN F SEYBOLT, AND DAVID W BRAUN *page* 400

Prevalence of antichlamydial antibody in London blood donors
S DAROUGAR, T FORSEY, D A BREWERTON, AND K L I ROGERS *page* 404

Treatment of vulvovaginal candidal infection with miconazole-treated tampons
N A M BERGSTEIN *page* 408

Further evidence of the efficacy of co-trimoxazole in granuloma venereum
SARDARI LAL AND B R GARG *page* 412

Correspondence *page* 414
